

Lead Mitigation Plan – Update # 11

May 5, 2017

Schools mitigated awaiting Northern Health Approval before resuming normal operations:

- Nukko Lake Elementary.

Schools mitigated and returning to normal operations at the following locations:

- Pineview Elementary

Work in Progress

Foothills Elementary: Galvanized pipe at Foothills Elementary and will be replaced over two weekends May 6 and 13. The water will be tested following the replacement of pipe. Should the results not meet the guidelines, new faucets and drinking fountains with lead filters will be installed.

Heritage Elementary: Work will commence the week April 24, 2017 to replace faucets and drinking fountains. The water will be tested; should the results not meet guidelines lead filters will be installed.

John McInnis Centre: New faucets will be installed at the location which failed, water will be tested. Work is expected to take place by middle of May.

Nusdeh Yoh Elementary: Pipe will be replaced in the school, water will be re-tested. Should the results not meet the guidelines, lead filters will be installed along with new drinking fountains and other approved potable water locations. Schedule to be determined by contractor but expect this work to take place during the summer months.

Planning Stage:

Planning and materials are being ordered to replace the drinking fountains at these facilities for completion into the fall of 2017 or sooner if possible.

- Beverly Elementary
- College Heights Elementary
- Peden Hill Elementary
- Pinewood Elementary
- Polaris Elementary
- Vanway Elementary
