**World Class Education:
Educating Creative and Entrepreneurial Students**

The world needs creative and entrepreneurial talents who are globally competent to take advantage of the opportunities brought about technology and globalization and tackle the tough challenges facing human beings. But our schools are being pushed to produce homogenous, compliant, and employee-minded test-takers, as a result of seductive power of the traditional education paradigm. In this presentation, Dr. Yong Zhao challenges the traditional paradigm, debunks the myth of international tests such as PISA and TIMSS, and proposes a new paradigm of education aimed to cultivate diverse, creative, and entrepreneurial talents.
