CAPITAL PROJECTS – PUBLIC INVOLVEMENT

REGULATIONS:

1. When the Board believes a capital project would be of interest of the community, school district administrative staff shall inform the public of the project.
2. As a general principle, the district administrator most closely associated with the project shall be responsible for initiating and conducting a public involvement program.
3. Advisory committees may be appointed by the Board.
4. Information received from the community concerning the project shall be considered by the Board in making its decision.
