### **Mask mandates still in effect**

Hello parents/guardians and supporters of students across our district,

What a happy day we've had, hearing the announcement from provincial health authorities that COVID-19 safety measures have worked, and they can now relax our province-wide orders.

The new information we received today has clarified that for the K-12 system **tomorrow is masks as usual** across School District 57 for all those who ride buses and attend school-based activities.

We are all looking forward to the fun and family activities that come with Spring Break. When everyone returns to school after the time off, masks will no longer be required. Until that time, the usual wearing of masks continues for all school-based adults and children.

It is important to note that when school resumes after Spring Break, many will wish to continue wearing masks, at times and situations of their choosing. Those personal decisions have the full support of SD57, and respect and comfort is to be an absolute for all those who choose to do so.

Thank you for your support and cooperation. I'm sure we are all excited for the break coming our way, and for the great news that COVID-19 measures can be adjusted after bearing strong through two years of difficult conditions.

Mussi,

Cindy Heitman (she/her)  
Superintendent of Schools
