

# Rapid antigen at-home test instructions

K-12 Students

Each student in public, independent and First Nations K-12 schools is being provided with a box of five Artron rapid antigen at-home tests distributed through their school .

The information below on when and how to use the tests is summarized from [BCCDC](#).

## When to Use the Test

These tests are intended for students in K-12 schools. They should only be used when the student has [symptoms of COVID-19](#)

If a person in your household finds it hard to breathe, has chest pain, can't drink anything, feels very sick, and/or feel confused, contact your health care provider right away, or go to your local emergency department or call 9-1-1.

Do not give your child a rapid COVID-19 test if they do not have symptoms of illness.

Test instructions are included in the box, and also [here](#). Test instructions are available online in [ASL](#), [Arabic](#), [Simplified Chinese](#), [Traditional Chinese](#), [Farsi](#), [French](#), [Korean](#), [Punjabi](#), [Spanish](#), [Vietnamese](#) and [Tigrinya](#).

## Test Results

**If the result is positive**, it means your child likely has COVID-19.

Use information from BCCDC to [understand the test results](#), including what actions your child should take. [Complete an online form to report their test result](#) to public health and notify your school that their absence is due to illness.

**If the result is negative**, your child may return to school when they feel well enough to return to regular activities. Notify your school that their absence is due to illness.

Visit [BCCDC](#) for up-to-date information on COVID-19.
