

## [YOUTH EXPLORE TRADES SAMPLER 2021-2022](#)

IN-DEPTH WAY TO BUILD YOUR SKILLS IN MULTIPLE TRADES

Applications encouraged to be completed before Spring Break.

In partnership with the College of New Caledonia (CNC), SD57 will be offering students in grade 10-12 an opportunity to "sample" four trades in the **Youth Explore Trades Sampler**. This has been a very popular and engaging district opportunity to learn more about the trades over the years.

This program lets you explore multiple trades in greater depth, gain practical skills and complete certifications that trades employers are looking for. The **Youth Explore Trades Sampler** is a great way to prepare for an apprenticeship program such as the **Youth Train in Trades Program** or the **Youth Work in Trades Program**.

The **Youth Explore Trades Sampler** takes place at the [Career Technical Centre/CNC](#)

- 12 credits
- 4 different trades in a 6-week cycle
- 1 semester long
- offered in both semesters
- First time - Youth Explore Trades - Women in Trades Cohort [Raising Awareness - Women in Trades - YouTube](#)
- attend half days
- student attends classes at their school to complete the day
- all costs are covered by SD57

Registration requires a completed registration form, a completed teacher reference form and a completed administrative form found attached in this email.

If you think your child would be interested in this program, please complete the attached application, and return it to your school office or email it to [BNorthrop@sd57.bc.ca](mailto:BNorthrop@sd57.bc.ca).

For more information or support to apply to the **Youth Explore Trades Sampler**, or the **Youth Work in Trades Program** please contact:
