#### School RESPONSE to the Data-Driven Dialogue

GENERATION What did you see?	INTERPRETATION What did you learn?	IMPLICATION What is your response?
Students feel there are safe adults at Harwin they can go to for support.	Our target of 2 or more safe adults was met as most students stated they had 4 or more safe adults.	Move from a focus of primarily supporting students socially and emotionally to academic and social-emotional support.
Students have progressed this year in literacy and numeracy, but gaps still remain.	Students' academic scores are improving at a greater rate in literacy than in numeracy.	Targeted intervention for numeracy while still focusing on literacy and social-emotional well-being.

**Summary Statement and Reflections on Outcomes:**

Upon examining the data, it is evident that Harwin has made progress in literacy achievement by the time students reach the upper intermediate grades. However, numeracy is an area where students continue to have difficulty. The data demonstrated that Harwin students feel safe and valued at school, and that there were 2 or more safe adults they could go to for support at Harwin.
