

ARE YOU A PARENT OR GUARDIAN OF A CHILD AGE 7-12 YEARS LIVING IN NORTHERN BC?

Research Opportunity

We are looking for volunteers to help us learn more about children's independent mobility (CIM). CIM is about kids' freedom to play and move around in their neighbourhood without adult supervision. This includes free play, active travel, and unsupervised activity.

- Participation will involve a pre-interview meeting (15 – 30min) and one interview (45 – 60min) both over telephone or video conference
- You can participate in this study as an individual, with your partner, or with your children
- To thank you, you will be given a \$25 gift card to a local grocery store or food vendor of your choice

If you are interested in participating or would like more information, please contact Katie Cornish (research associate) at katie.cornish@unbc.ca and/or Chelsea Pelletier (project lead) at chelsea.pelletier@unbc.ca or 250-960-5283.

This project is funded by the BC SUPPORT Unit, Northern Centre and has received ethical approval from the University of Northern British Columbia and Northern Health. Your participation is completely voluntary and confidential.

Social media disclaimer: Interacting with this post (liking, commenting, or sharing) may publically associate you with this study even if you do not participate
