

Bike to School Week

Malaspina is celebrating Bike to School Week!

Together with many other communities in British Columbia, from May 27 to May 30th, Malaspina Elementary is celebrating Bike to School Week and encourages students and their families as well as teachers and staff members to ride their bicycle to school.

By riding their bikes, students arrive fresh and energized at school and reduce traffic in and around the school's neighbourhood at the same time. Less traffic means more safety for cyclists. More safety means more fun. More fun means natural behavioural change towards a sustainable future.

Riding bikes is fun and helps the environment at the same time!

Students are encouraged to ride their bikes from May 27-May 30th. Participants **must wear a helmet and have a bike lock**. Those students who come to school by bike will be entered in a draw for some fabulous prizes!

Thank you for your participate in this event 😊

Enjoy the ride!
